

# Dorset Innovation Hub within the wider Wessex system

**Dorset Innovation Hub**

[www.ourdorset.org.uk/innovation/](http://www.ourdorset.org.uk/innovation/)

## Strategic System Partnership support for innovation adoption

- Developing the understanding of innovation within partner organisations, increasing involvement and awareness, building an innovative culture, 'developing the impact' and building networks across the Dorset system
- Governance inc. good project management, implementation, review of service user outcomes and experience, benefit realisation and sustainability of initiatives
- Working in strategic system partnership, share knowledge and expertise to provide direction for the definition, development, maintenance and implementation of the DIH Innovation Workstreams that meets a 'need' and supports Dorset priorities
- Benefit in kind funding from all Dorset partner organisations
- Feeding back into Dorset and beyond learning from innovation adoption work

**Health Innovation Wessex**

[healthinnovationwessex.org.uk](http://healthinnovationwessex.org.uk)

## Provides specialist innovation adoption, industry support and insight services across health and care

- Market appraisal/innovation scanning for local health and care priorities
- Implementation design and co-delivery of innovation adoption programmes (Wessex and nationally)
- Supporting health and care systems to develop innovation adoption capability to become innovation ready
- Evaluation and rapid insight to support learning health systems
- Innovator support to develop a rich pipeline of demonstrably useful, evidence-based innovations and support economic growth

**Wessex Health Partners**

[wessexhealthpartners.org.uk](http://wessexhealthpartners.org.uk)

## Wessex strategic alliance to accelerate improvement in health & care through research, innovation & training

Activities that promote and enable greater partnership working to:

- Connect R&I to the health and care challenges in Wessex
- Increase pan-Wessex, inter and intradisciplinary collaborative research
- Increase systematic translation and adoption of innovation at scale
- Develop the workforce to discover, develop and deploy
- Enhancing discoverability of information & data through our Wessex Secure Data Environment (SDE)
